

ACB Standards for Basketball Hoops

- Permits are required from the ACB for all hoops.
- Basketball hoops are considered permanent and must be planed in a concrete base.
- All hoops shall be placed to the inside of an existing driveway not farther than the top third between the home and the street.
- All hoops shall be the standard height (10') or shorter.
- All hoops shall be kept in good repair.
- All hoops shall have black, white, silver or dark green poles and can be integrated into the landscaping.
- Homeowner assumes liability of damage caused by hoop or its use.
- Hours of use will be limited from sun-up to sundown.
- Permission for a hoop is non-transferable.
- Must be approved by the ACB.
